DETAILED ACTION

A request for continued examination under 37 CFR 1.114 was filed in this application after appeal to the Board of Patent Appeals and Interferences, but prior to a decision on the appeal. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 08/25/2006 has been entered.

Claims 2 and 5–14 are pending and being examined.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Antony M. Novom on November 6, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Replace claim 2 with the following claim:

2. A method of detecting expression of growth differentiation factor-5 (GDF-5) in a tissue specimen of a subject, comprising contacting an antibody that specifically binds a GDF-5 polypeptide having the amino acid sequence as set forth in SEQ ID NO: 10 or SEQ ID NO: 13, or an antigen binding fragment of the antibody, with a tissue specimen of the subject, and detecting binding of the antibody or the antigen binding fragment of the antibody, wherein the specimen is from uterine neoplasm tissue or skeletal tissue.

Election/Restrictions

Claims 2, 5–8, 11 and 12 are allowable. Claims 9–10 and 13–14, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction**

requirement among inventions the species of detectable label, the species of hapten, and the species of solid phase carrier, as set forth in the Office action mailed on 10/02/2002, is hereby withdrawn and claims 9–10 and 13–14 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971).
